## 1 How can Gold'Expat protect you abroad?

✓ **Financial risks:** health care costs vary greatly from one country to another. They can be extremely high in certain countries.

For example: A one-day hospital stay can reach 10.000 € in North America.

GoldExpat supports **your healthcare costs** and pays **directly in case of hospitalisation**. By choosing the options, your **dental and optical care** is also supported.

✓ **Risks related to accessing medical care:** in some countries, public healthcare doesn't allow a choice of doctors or hospitals. Accessing medical care can be difficult, with long wait times. In contrast, Gold Expat reimburses care provided by **private medical providers and clinics, allowing you the freedom to choose your own care providers**.

✓ **Legal risks:** depending on the country, a simple car accident can lead to incarceration. It is always a difficult situation when you are abroad in a country where you are unaware of the law.

GoldExpat gives you the possibilities to benefit from a **Personal Liability and legal representative option**.

✓ **Sanitary risks:** in certain areas, medical infrastructure is limited and the sanitary conditions are unacceptable. GoldExpat offers optional **repatriation assistance** in case of poor sanitary conditions.
